Applicant's amendment filed July 13, 2004 has been fully considered by the Examiner but is not deemed persuasive.

Applicant argues that Fig. 20A of Hashimoto does not disclose "a further switch (Xj) between said column amplifying element (Aj) and the common output amplifier (D)".

In response, Examiner notes that as broadly as claimed the limitations of claims 3, 4, and 11 are shown in Fig. 20A wherein there are switches, namely S/H circuits 12A and 13A, connected between the column amplifying elements, A1 and A2, and the common output amplifier element 14A.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3, 4, and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by (USPN 5,311,320 to Hashimoto).

Claims 3 and 4 are clearly anticipated by Fig. 20A.

In regards to claim 11 Examiner notes that there are at least two input terminals, namely at least the terminals for  $V_{cc}$  and  $V_{ss}$  are input terminals. Further, Examiner notes that each pixel can be considered an input terminal, namely a terminal for inputting energy from ambient radiations.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
